

Everyone gets sick, including **LGBT families.**

That's why Family Equality Council is hard at work in our Nation's Capital working to ensure that access to culturally competent health care for all families is part of the comprehensive health care reform package advanced by Congress and the President. **Has lack of legal recognition hindered or prevented you, your partner, or your children from receiving health care?** Help us make sure the needs of your family are part of this historic health care reform effort. **Tell us your story at www.familyequality.org/action/story**
